*"Health is a state of complete physical, mental, and social well-being and not merely the absence of disease."*

World Health Organization

**the six dimensions of health**

**physical**  
**spiritual**

**intellectual**  
**emotional**

**psycho-social**  
**environmental**

Vanderbilt University, 2006

**passionate people...**

Healthy Communities Partnership (HCP) began in 1993 when the Franklin County Health Care Consortium was founded by a passionate group of community leaders concerned about the overall health in Franklin County.

HCP of Franklin County is comprised of representatives from health-care, human service agencies, government, education, faith, and the business communities.

Partnership status is accorded to individuals and/or organizations that agree with the value of a united effort to address the quality of life and will commit to supporting that initiative.

**creating a healthier community...**

HCP brings passionate people together who are all about advancing the health and well-being of Franklin County residents.

Here is how we accomplish this mission:

- ⦿ Networking organizations with similar goals & needs,
- ⦿ Assisting in the creation of new, innovative programs for residents,
- ⦿ Connecting people to services or resources that will improve health and well-being,
- ⦿ Supporting organizations and businesses that assist the residents of Franklin County.

**our current initiatives...**

- One by One - youth mentoring program
- Tobacco education and cessation programs for youth and adults
- The Community Coalition for the Prevention of Substance Use and Abuse
- Quarterly youth healthy alternative activities
- The Student Assistance Program – helping troubled teens in every middle and high school in Franklin and Fulton Counties
